THE LAST HOURS OF LEGISLATION-THE GOV-ERNOR'S VETO ON WHITEHALL AND PLATTS-

BURGH SUSTAINED. ALBANY, May 6 .- Both Houses agreed to adfourn to-day at 25 o'clock. The Senate did it at the apinted time and in good order. The Assembly dissolved by the Speaker's decision at 2:40, in a wrangle, and with more butterness and ill-feeling existing than has at any time heretofore characterized its proceedings. At 2:20 Mr. Flagg, from the Committee on Federal Relations, reported resolutions denouncing Congress. The Reablicans immediately commenced to defeat them

by calling the yeas and nays. The calls were disregarded. Those Republicans who attempted to explain their posi-tion were choked down. But they insisted so forcibly that the Speaker was finally obliged to recognize the fact of there being a minority present. While the vote was being taken, the nour of adjournment arrived, but the speaker insisted that the calling of the roll should be continued, and it was until 20 minutes of 3 o'clock, when is amounced the resolutions adopted, and the House adjourned. All the Republicans voted in the negative. The best of feeling had prevailed all the morning, and the scene at the close was all the more disgraceful for it.

for it.

It was thought this morning that the Senate would agree to an Executive session, and confirm the nominations of the Governor. It was expected that enough Democrats would join with the Fenton Republicans to have such a session. When 13 o'clock arrived (the hour for executive session), Mr. Folger moved to take a rebess, and it was carried by the following vote. It is proper to state that Mr. Parker would have voted in the negative if there had been a chance for an Executive session:

Banks, Bezelt, Daubtwell, Urramer, Crowler,	Edwards, Folger, Genet, Graham, Hale,	Mattoon, Morris, Biarphy, Nichols, Nurton,	Parker, Pierce, Stanford, Twred, Van Petten—

An altempt was made to-day to override the Governor's reto on the Whitehall and Plattsburgh Railroad. When the bill was up before, a vote was taken and it was sustained. Subsequently a motion to reconsider was tabled. When that protion was taken up from the table to-day a point of order was raised that to take another vote on the matter was in violation of the Constitution, which hald that a vote on a bill can only be reconsidered once. That vote to reconsider had been taken when the vete was up before. The Lieutenant Governor decided the point well taken, just as he did the night the sheriff 's bill (which was a similar one) was up. An appeal was taken to the Senate, and the decision was not sustained. Yeas, 11: Nays, 12, as follows:

The bill's granting State aid to the Walkill Valley and Newburgh Railroad and to the Buffalo and Washington Railroad both go to the Governor, who will not sign them, judging by the vote of Whitehall and Plattsburgh. When the Committee of the Assembly waited on the Governor, and told him that that body was ready to adjourn. Gov. F. told them he was sorry the Legislature had sent him so many important bills on the last day of the assion—a remark which indicates that hasty and corrupt legislation will not be sanctioned by his Ex cellency.

4 The State Charity bill passed both Houses. The appropriations to each school were stricken out, and \$50,000 were set apart to be distributed pro rata to each school oniside of the Boards of Education throughout the State. The votes in the Senate againgt the bill were Messis. Chaponan, Graham, Murphy, and Nicks. In the Assembly but two votes were recorded in the negative—Messis. Brush and G. Clark.

Anong the bills which died with] the session was the Arcade Railroad.

The City and County Tax Levies passed the Senate unanimously. When the votes were taken there were absent Messis. Beach, Bradley, Chapman, Creamer, Graham, Hubbard, Morgan, Murphy, O'Donnell, and Palmer. In the Assembly the vote on the city levy stood:

THE IRISH CHURCH-A DIVISION EXPECTED TO-DAY

A GREAT TORY MEETING.

A division is expected to take place in the House of Commons to-morrow night (7th inst.) on the remainder of the resolves proposed by Mr. Gladstone in reference to the Irish Church. A meeting was held in St James Hall today in favor of the continuance of the Irish Church es-tablishment. The attendance was immense, and the proceedings very noisy and turbulent. The Archbishop of Canterbury occupied the chair, and the platform was crowded with the most prominent men of the Tory party. The Archbishop of Canterbury, on taking his position, made a speech in furtherance of the objects of the meeting. The Lord Mayor then rose and moved a series of resolutions in favor of the continued union of State and Church, which were seconded by the Bishop of Oxford. The Archbishop of York also presented resolutions, to the effect that an attempt to overthrow the Irish Church was an attack upon the Church of England, and a movement toward the establishment of Papacy upon the country. There was much tumult and confusion at this point of the proceedings. The resolutions were finally adopted, and the meeting adjourned.

CONVENTION OF THE LIBERTAL CHRISTIAN UNION.

The Convention of Liberal Christians, composed bostly of members of the Unitarian and Universalist denominations, met at Dr. Osgood's Church, Parkplace and Thirty-fourth-st., at 10 o'clock yesterday morning. The Rev. A. P. Putnam of Brookiya was in the Chair, and the Rev. H. C. Leonard of Albany acted as Secretary. Delegates were present, from the Church of the Messiah in this city; Hope Church, Yonkers: Church of the Redeemer, Staten Island: Church of the Redeemer, Staten Island: Church of the Redeemer, Flushing, Classon-ave, Church, Independent Universalist, and the Cleurch of the Savior, Brookiya Church of our Father, Newburgh; and delegates from Flushing and Newkirk. Many of the delegates were indies.

The annual report was read. It is a summary of the reports from the various churches, showing how the Liberal Christian cause is progressing—generally favorably. Only one report was discouraging—that from Yonkers. The Rev. Henry Blanchard of the Independent Universalist Claurch, Brooklyn, said that he had left the Universalist Claurch, Brooklyn, said that he had left the Universalist Claurch some years ago through a point of honor, but he looked for feliowship, and was drifting toward the Unitarians. But netther Universalist on Unitarian was now considered as a name to be separately recognized, while the name of "Iberal Christian" was getting specially popular, and was much liked. The next speaker was the Rev. Mr. Chadwick of Brooklyn, who opposed the adoption of liturgical service. He spoke of the Episcopal liturgy, which he hought had no more effect than the pitching of coppers. The general sentiment of the people, he thought for Christians, but I was up-hill work. Leave things to themselves in Boston and they tended to heaver have a summary of the market of Christians, but I was up-hill work. Leave things to themselves in Boston and they tended to heave have a summary of the appearance of the Church of the Messiah, and remarked that he had heard that the interio

crally of the old-fashioned congregational character, but the question of liturgical service had been under consideration.

The Corresponding Secretary, Mr. Wm. Medlen, spoke of the necessity of an organized plan of contributions in aid of churches where the congregations were poor, and suggested that some action be taken in this regard.

The Rev. Henry Blanchard of Brooklyn looked upon complete fellowship as the first necessity rather than monetary aid.

The Chairman replied that this complete fellowship might well be shown by the aid extended to one another.

The matter was further discussed, and short addresses touching liturareal service and kindred topics made by the Rev. Mr. Pullman of New-York, Mr. Wm. Little, and others, when the meeting adjourned.

A public meeting of the friends of the Liberal Christian movement was held last evening, at the Church of the Mossiah. A select andience was present. The Rev. Mr. Mellows, is its acting President, introduced the Rev. Mr. Pulman, of Brooklyn, who, in the absence of the Rev. Dr. Reflows, is its acting President, introduced the Rev. Mr. Charmant of England as the first speaker. Mr. Charmant the gave a summary of the liberal movements in England. The day there, he said, was a day of change, both in Church and State, a day in which old things were passing away, and a brighter future was opening. Looking at the religious condition of England with liberal eyes, the attention was naturally drawn to the Unitarian body, who were the leaders in scelesiastical liberty. The 2,000 members of the Established Church, who, some years ago, drew out of that body, did not then think that in opening free pulpits, they were doing anything toward forwarding the Unitarian cause: they sought simply to found free churches, but the Unitarian and liberal movements had grown out of that measure. The Unitarian body increased slowly in numbers; but missionary efforts were at last-segun in the manufacturing districts, and the result was highly beneficial. The best Unitarian missionary in E enough: but they do not speak out if the heir apparent or the Prime Minister learn from President Johnson the art of getting drunk. Bishop Colenno he regarded as the representative of progress in the English Church; he would remain there, and become the center of resistance to its theology. In London, only one in a hundred of the artizan class attend any place of worship. They were called irreligious: but the speaker was not disposed to pass a harsh condemnation on them. The Speaker thought the Great Teacher was coming, and He would teach the bond of human brotherhood to the nations, and when that shall have been done the future of England would belong to Liberal Christianity. The Rev. J. S. Young of the Orthodox Congregational Church, Poughkeepsie, next addressed the meeting. He remarked that the Evangelical alliance was an alliance simply of those who held certain theological opinions in common, and like the Holy Alliance it had proved to be a failure. He then advocated an alliance of Christians in the liberal spirit proposed by this conference, and advised an exchange of pupits among denominations of all kinds, a system which he aild would be brought about in the better and brighter future which was dawning.

The Rev. Dr. Thompson of Jamaica Plains, Mass., then made a brief address, dwelling on the good effects that resulted from the Liberal Christian movement in his state, and was succeeded by Mr. Warner, a layman, on the same subject, when, after singing the devology, the congregation retired.

Chicago, May 6.—The Conference assembled at 9 o'clock, and was opened in the usual manner, the Rev. D. Brooks leading devotional exercises. The following resclution was presented and referred to the Committee on Revivals:

The Rev. H. W. Goodall of Indiana offered a resolution on the sablect of treaties with Indiana tribes, warruly seconding the recent recommendations of the Peace Commissioner. Referred. The Rev. J. I. Smith of Indiana offered a resolution requesting Bishops to communicate to the General Conference as soon as wracticable whether, in their judgment the Epis copacy Board should be strengthened by the election and consecration of additional Bishops. Tabled. Dr. Tremble asked that all papers relating to districting, of the Episcopacy be referred to the Committee on Episcopacy. Dr. Peck thought that all papers on that subject properly belonged to the Committee on Itinerancy. After discussion the Conference determined that the Committee on Itinerancy had jurisdiction. The Special Committee on Admission of Southern Delegates reported in part, recommending that Delegates from these Southern Mission Conferences be invested with all rights of delegates in this body, except the right of voring, and that the bodies which they represent be constructed into Conferences with all rights and privileges of the same. Dr. Thayer of Boston moved to amend so as to strike out that part of the report which denies the right to vote to Southern Delegates. Dr. Foster explained that, so far as they have reported, the Committee are unanimously agreed on the question of the right to vote; the Committee desired further time to consider. The Rev-Dr. Reddy offered a substitute of the report of the Committee, setting forth the facts in regard to the

COL. FOLKET'S ACCOUNTS.

The Committee appointed under the Senate resolution of April 15th, to investigate the accounts of Col. A portion of these vouchers have not yet been passed upon by the Auditor of the Treasury, but the Committee report as the result of the investigation that the Secretary is now a creditor to a small amount, and that no losses have been sustained by the Government through his action. On the contrary, they state that the evidence taken by the Committee completely vindicates him from such imputations. In view of the remarks in the Senate at the time of the adoption of the resolution of investigation, which were well calculated to provoke serious doubts' regarding the disbursement of the Senate contingent fund, they felt it to be their daily to bestow particular attention on the question of an alleged deflacation or misuse of that fand in the hands of the Senate contingent fund is with the Financial Clerk, who is one of the officers of the Senate, and assigned to that particular duty by the Secretary. He prepares requisitions upon the Treasury, from which all moneys are drawn; has exclusive control of the safe in which they are kept, and makes all disbursements therefrom. The Secretary signs the requisitions, but in no case receives or pays out the moneys drawn. It will be seen, therefore, that this financial clerkship is an office of much in protance, and that the person who fills it should be a

On Saturday night, the 19th inst. I was actived with a severe attack of congestion of the lungs during my absence from home. For some days previously I experienced some measuress in my left lung; but, being actively engaged both day and night, "had not time" to apply some dash agents. When select I felt as though a red-hot knife was piercing and coming my lungs; my breathing hard, short, and with cach respiration as causing my image; introducing pain, like an electric shock. This extended over any langs, cheet, back, and shoulders, and with my cough, neuralgic spasms long and sharp. I produced several bottles of READY RELIEF, and had it applied thoroughly, plentifully over my chest, spine, aboutders, &c., and with finned soaked in READY RELIEF as a bandage. In a few see, and with finned soaked in Array's includer a some of heat was felt over my longs, chest, &c.; then perspiration broke out, and all pain ceased, my breathing became easy, cough loosened, spasms submided, and in half am hour slept as calmly as though no pain had existed to occasion the feast hour siept as calmily as though no pain had existed to occasion the issaid alarms. I used up three So cent bottles. By applying it thus freely, thus great principle of counter-irritation was at once secured, and all tendency to inflammation withdrawn to the surface.
